Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Prelim./Amdt.

1. Receipt is acknowledged of the amendment filed 05/31/2006.
2. Claims 2-8, 10 and 12 are pending, and claims 1, 9 and 11 have been cancelled.

Response to Arguments

3. Applicant's arguments with respect to claims 2-8, 10 and 12 have been considered but are moot in view of the new ground(s) of rejection. The new ground of rejection follows.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 2-5, 10 and 12 are rejected under 35 U.S.C. 102(b) as being anticipated by Lin (US 6,039,463).
6. Re claim 2: Lin disclose a lamp having a base (2 and 7 in Fig. 1), a shade (3), and a coupler (5 and 6) between the base (2) and the shade (3) removably securing the shade (3) to the base (2) wherein the base includes a neck (4) and the shade includes a lip (the lip of the shade 3 around the opening 31 in Fig. 1) adapted to sit in the neck (4), the coupler (5 and 6) including a cup (6) within the shade (3) extending through the lip (see the cup 6 is extending through the opening 31) and into the neck (4).

Art Unit: 2875

Re claim 3 and 10: Lin further discloses a threaded bore of the base (72) and the coupler includes a threaded screw (8) for threadingly securing the coupler to the base (2).

Re claims 4-5 and 12: Lin discloses a circumferential cylindrical wall (the wall 63) of the cup (6) defining a cavity (61), and a ring (5) surrounds the wall.

Claim Rejections - 35 USC § 103

7. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

8. Claims 6-8 are rejected under 35 U.S.C. 103(a) as being unpatentable over Lin (US 6,039,463).

Re claims 6-8: The teachings of Lin have been discussed above. Lin does not teach that a ring of the head portion is unitary with the cup of the head portion. However, it would have been obvious to one having ordinary skill in the art at the time the invention was made to modify Lin's ring and cup portion being formed in one piece, since it has been held that forming in one piece an article which has formerly been formed in two pieces and put together involves only routine skill in the art. *Howard v. Detroit Stove Works*, 150 U.S. 164 (1893).

Conclusion

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
